Declaration of Brian G. Oatman

I'm submitting to the Court Exhibit #3, which are notes I took while housed at the Coffield Unit from May 6, 2024 through July 27, 2024. We suffered a Heat Wave during those times and TDCJ employees locked us in our cages for hours denying our Access to ICE, Cold Water, Respite and Cool off showers which are only ever offered at 7:00 pm.

Several inmates passed away during this time and me and Nell Gaiter at Trans Pride Initiative in Dallas believe there is reason to believe they could very easily have been due to heat and neglect of duties. Richard Babcock told Nell Gaiter that Huntsville is instructing the Coffield Unit to lock inmates in their cells away from ICE Water and Respite and that its only for one to one and a half hours.

But Grievance Answers say ~~there~~ hourly Ingress/Egresses are being conducted. ~~These~~ These notes will hopefully help Judge Pittman find the truths in Tiede v. Collier 1:23-cv-1004-RP. I'm requesting this Court to order Bryan Collier to preserve video footage from the Coffield Unit for the months of May, June & July. To be used as evidence in Oatman v. Collier; TDCJ and Tiede v. Collier.

Respectfully Submitted
